Rhea Laloo.

AI Engineer · Mumbai, India

I build AI that notices what's wrong (in logs, in code, on roads) and agents that act on it.

EXPERIENCE

Tata Consultancy Services
Dec 2025 — Present

AI Engineer

- Built and evaluated a legal knowledge assistant (proof of concept) on Flask + Azure OpenAI, with Ask, Review, Compare and Draft modes over interrelated legal documents; tested on up to 1,500 documents.
- Cross-document answers from hybrid BM25 + semantic search (SentenceTransformer embeddings) with grounding checks against hallucination; BM25 shortlisting and page caps cut the cost per query.
- Building a Claude computer-use agent that benchmarks brands against competitors across the marketing funnel, taking it from a Claude skills prototype to a standalone Claude API app with a custom control loop, custom tools and step and cost limits.
- Built a low-code agent-creation accelerator on LangGraph with multi-provider model support.
- Built an end-to-end log anomaly detection pipeline (Autoencoders, Isolation Forest) with SHAP root-cause analysis, anomaly clustering and LLM-based attack-type classification.
- Built chub-guard, an AI-powered linter that flags deprecated code against documentation indexed in Context Hub; published on PyPI, npm and the VS Code Marketplace.
- Mentored 150+ students across Coimbatore, Lucknow, Chennai, Mumbai and more and at the IndiaAI Impact Summit, plus company secretaries, and HR leaders at the Top Employer Summit.

Nareshwadi Learning Centre
Jun 2024 — Jun 2025

Lead Software Development Intern

- Developed and deployed a full-stack React Native cattle management app for 50+ cattle: lifecycle tracking, offline milk entry, alerts, and 7-day milk production analysis and reports.
- Built a module to predict cattle diseases and milk-yield trends using Random Forest with 94% accuracy, based on the past 10 days of milk-yield data.
- Ran 3+ rounds of user testing with farm staff to gather requirements and improve usability.

AICTE — IBM SkillBuild
May 2023 — Jul 2023

Artificial Intelligence Intern

- Built regression models forecasting yearly mental-fitness rates across 15+ countries, trained on 20+ years of historical data.

PROJECTS

Pitwall — 3D portfolio (rhealaloo.com) Three.js · JavaScript · HTML · CSS — github.com/rhealaloo45/pitfall

A real-time 3D portfolio where visitors drive a car through the site's sections, built in Three.js and JavaScript.

ADHD Detection Model Python · NumPy · Pandas · Random Forest · SVM · Naive Bayes — github.com/rhealaloo45/adhd-detection

ADHD detection using Naive Bayes, SVM and Random Forest on the ADHD-200 dataset. Random Forest achieved over 87.2% accuracy.

RoadHawk — IoT Pothole Detector Raspberry Pi · CNNs · Sensors · Python · Django · Google Maps — github.com/rhealaloo45/RoadHawk

A Raspberry Pi with three sensors and a camera; a CNN detects potholes, and a Django API gives government authorities the data, with locations on Google Maps.

TECHNICAL SKILLS

AI / LLM	Generative AI, LLMs, RAG, Hybrid Search, Embeddings, Vector Databases, Prompt Engineering, LLM Evaluation, Anthropic Claude API, Computer Use, Azure OpenAI, Gemini
Machine learning	Autoencoders, Isolation Forest, Random Forest, SHAP, CNNs
Frameworks	LangGraph, LangChain, Flask, Django, React Native, Bootstrap
Languages	Python, Java, JavaScript, HTML, CSS
Tools	Git, GitHub, Claude Code, GitHub Copilot, MongoDB, NumPy, Pandas

EDUCATION

K. J. Somaiya Institute of Technology · B.Tech in Information Technology · CGPA 9.95, secured 1st rank in college — 2021–2025

K. C. College · HSC Science (Class 12) · 97.33%, among the top 1% of students across the board — 2019–2021

Villa Theresa High School · ICSE Science (Class 10) · 91.83% — 2011–2019

CERTIFICATIONS & ACHIEVEMENTS

- Claude Certified Developer (Anthropic)
- Gemini Enterprise certifications (Google): Agent Development, and Deployment Specialist
- GitHub Copilot certification, GH-300 (Microsoft)
- Oracle Cloud Infrastructure AI Foundations Associate certification
- Finalist at Avishkar Research Convention 2024: cleared the zonal round and reached the state-level finals with a research project on cattle management
- Selected for CiiA 2024 and 2025 Top 80 in India out of 695 teams for an IoT-based pothole detection system
- Earned the AWS Academy Cloud Web Application Builder Badge
- Won 1st place in the CodeCheck coding competition held by IETE-KJSIT
- Technical team, IEEE KJSIT, Aug 2023–May 2024: led the IEEE KJSIT website build and volunteered 20+ hours
- Joint Public Relations Officer, IEEE WIE KJSIT, Aug 2023–May 2024
